## It's Your Money. **Why Wait?** Pay-O-Matic Offers a Better Business Solution.

Big banks treat small and independent business owners differently. Quite frankly, they don't treat you better. Banks make you wait for your business checks to clear, sometimes for days, before you get your money! They also keep 'bankers hours'... which means they're open while you're running your business and usually closed when you need them.

Pay-O-Matic doesn't work that way because you don't work that way. We believe you deserve a higher level of respect and service. Plus, more locations, convenient hours, fast turn-around, and no holds. To us, that's just smart business!

With over 150 locations in the New York area, there's a convenient Pay-O-Matic location nearby. Many of them are open 24 hours. And, every one guarantees that your business will receive First Class service!
