## Description Summary

This list is the perfect tool for businesses looking to target homeowners with septic tanks. It is a high-quality, up-to-date list that is updated monthly to ensure that you are reaching the most current and relevant audience. Our list includes all the necessary information to contact these homeowners, including name, address, and phone number. Additionally, we have included key demographics such as income level, home value, and age range, to help you create a targeted marketing campaign. This list is great for businesses that provide septic tank services, such as installation, repair, and maintenance. It's also an effective way for businesses that sell septic tank-related products, such as filters and treatments, to reach a highly engaged audience. With our Premium Septic Tank Homeowner Mailing List, you can be sure that you are reaching the right audience at the right time, increasing your chances of making a sale and growing your business. Order now and start reaching homeowners who are in need of your services or products today!

## How Our Data Is Compiled

Our Homeowners with Septic Tanks Database is compiled using more sources than any other compiled consumer database in the industry, including: Surveys, Product & Warranty Information, Credit Card Transactions, Mail Order Purchases, Real Estate, as well as Deed & Transactional Data. This database is updated monthly to ensure quality and accuracy. This database is also processed against the USPS® National Change of Address (NCOA) system, in addition to Zip+4 coding and CASS Certification. Our Consumer Data is more than 95% deliverable... guaranteed

## Consider The Facts

- According to the Environmental Protection Agency (EPA), approximately 25% of American homes have septic systems.
- Nearly one in four households in rural America relies on a septic system for their wastewater treatment.
- On average, homeowners with septic systems spend between \$300 and \$1,000 per year on maintenance and repairs, according to the National Environmental Services Center.
- The average lifespan of a septic tank is approximately 20-30 years, depending on usage, maintenance and the materials used in the construction of the tank.
- 

## Recommended Usage
