

# SIC CODES BY MAJOR INDUSTRY GROUPS

The Standard Industrial Classification (abbreviated 'SIC') is a United States government system for classifying industries by 2, 4 or 6 digit code. Established in the 1930s, it has been supplanted by the six-digit North American Industry Classification System, sometimes referred to by NAICS code, which was released in 1997; however AmeriList, other database providers, certain government departments and agencies, such as the U.S. Securities and Exchange Commission (SEC), still use the SIC codes.

The following list describes all major industries by their 2 Digit SIC (Major Industry Classifications) Note\* Within these major categories are 4 Digit and 6 Digit Codes that allow for more specific industry selections.
